Leica Viva GNSS GS14 receiver

Datasheet

Proven GNSS technology

Built on years of knowledge and experience, the Leica GS14 delivers the hallmarks of Leica GNSS – reliability and accuracy.

- Leica SmartCheck RTK data-processing to guarantee correct results
- Leica SmartTrack best measurement data quality in all environments
- Leica xRTK delivers more positions in difficult environments

Flexibility

The Leica GS14 is designed to suit any measuring task.

- \blacksquare Integrated mobile communications and UHF radio modems (receive and transmit)
- Fully scalable sensor allows you to buy only what you need today and upgrade with additional functionality as you need it
- Integrated web server

Rugged

The Leica GS14 is built for the most demanding environments.

- IP68 protection against dust and continuous immersion
- Built for extreme temperatures of -40°C to +65°C
- Integrated mobile communication intenna technology to avoid breaking, losing or forgetting antenna

Technical Specifications

D.E.A.	Leica GS14		Leica GS14	Leica GS14	
Leica GS14 GNSS receiver	Single Frequency		Performance	Professional	
	Single Frequency		Terrormance	Troressional	
Supported GNSS Systems					
GPS L2	0		•	•	
GLONASS	0		0	•	
Galileo	0	_	0	•	
BeiDou	0		0	0

GNSS Performance	GNSS technology	Leica patented SmartTrack technology:			
GNSS		• Jamr • High • Exce • Very	Advanced measurement engine Jamming resistant measurements High precision pulse aperture multipath correlator for pseudorange measurements Excellent low elevation tracking Very low noise GNSS carrier phase measurements with < 0.5 mm precision Minimum acquisition time		
	No. of channels	120 cl	120 channels (240 channels) ³		
	Max. simultaneous tracked satellites	Up to	60 Satellites simultaneously on two frequen	ncies	
	Satellite signals tracking	• GLOI • Galil • BeiD	• GPS: L1, L2, L2C • GLONASS: L1, L2 • Galileo • BeiDou • SBAS: WAAS, EGNOS, GAGAN, MSAS, QZSS		
	Reacquisition time	< 1 sec			
Measurement Performance & Accuracy		Accuracy (rms) Code differential with DGPS / RTCM ¹			
	DGPS / RTCM Typically 25 cm (rms)				
	Accuracy (rms) with Real-Time-Kin	nematic	: (RTK) ¹		
	Standard of compliance	Compl	Compliance with ISO17123-8		
	Single Baseline (<30 km)	Vertica	Horizontal: 8 mm + 1 ppm (rms) Vertical: 15 mm + 1 ppm (rms)		
	Network RTK		Horizontal: 8 mm + 0.5 ppm (rms) Vertical: 15 mm + 0.5 ppm (rms)		
	Accuracy (rms) with Post Processing ¹				
	Static (phase) with long observations	Vertica	lorizontal: 3 mm + 0.1 ppm (rms) (ertical: 3.5 mm + 0.4 ppm (rms)		
	Static and rapid static (phase)	Vertica	Horizontal: 3 mm + 0.5 ppm (rms) Vertical: 5 mm + 0.5 ppm (rms)		
	Kinematic (phase)		Horizontal: 8 mm + 1 ppm (rms) Vertical: 15 mm + 1 ppm (rms)		
	On the Fly (OTF) Initialization				
	RTK technology	-	Leica SmartCheck technology		
	Reliability		Better than 99,99% ¹		
	Time for initalization	7.1	Typically 4 sec ²		
	OTF range	up to 70 km ²			
	Network RTK				
	Supported RTK network solutions	_	VRS, FKP, IMAX		
	Supported RTK network standards	MAC (MAC (Master Auxiliary Concept) approved by RTCM SC 104		

¹ Measurement precision, accuracy and reliability are dependent upon various factors including number of satellites, geometry, obstructions, observation time, ephemeris accuracy, ionospheric conditions, multipath etc. Figures quoted assume normal to favorable conditions. Times required are dependent upon various factors including number of satellites, geometry, ionospheric conditions, multipath etc. GPS and GLONASS can increase performance and accuracy by up to 30% relative to GPS only.

² Might vary due to atmospheric conditions, signal multipath, obstructions, signal geometry and number of tracked signals.

Upgrade possibility to 240 channels including GPS L5 and BeiDou.

Leica GS14 GNSS receiver				
Hardware	Weight & Dimensions			
	Weight (GS14)	0.93 kg		
	Weight	2.90 kg standard RTK rover including controller, batteries, pole and bracket		
	Dimension (GS14) (diameter x height)	190 mm x 90 mm		
	Environmental specifications			
	Temperature, operating	-40° C to +65° C, compliance with ISO9022-10-08, ISO9022-11-special, MIL STD 810F - 502.4-II, MIL STD 810F - 501.4-II		
	Temperature, storage	-40° C to +80° C, compliance with ISO9022-10-08, ISO9022-11-special, MIL STD 810F - 502.4-II, MIL STD 810F - 501.4-II		
	Humidity	100%, compliance with ISO9022-13-06, ISO9022-12-04 and MIL STD 810F – 507.4-I		
	Proof against: water, sand and dust	IP68 according IEC60529 and MIL STD 810F – 506.4-I, MIL STD 810F – 510.4-I and MIL STD 810F – 512.4-I Protected against blowing rain and dust Protected against temporary submersion into water (max. depth 1,4 m)		
	Vibration	Withstands strong vibration during operating, compliance with ISO9022-36-08 and MIL STD 810F – 514.5-Cat.24		
	Drops	Withstands 1.0 m drop onto hard surfaces		
	Functional shock	$40~{\rm g}$ / $15~{\rm to}$ 23 msec, compliance with MIL STD $810F-516.5-I$ No loss of lock to satellite signal when used on a pole set-up and submitted to pole bumps up to $100~{\rm mm}$		
	Topple over	Withstands topple over from a 2 m survey pole onto hard surfaces		
	Power & Electrical			
	Supply voltage	Nominal 12 V DC Range 10.5 - 28 V DC		
	Power consumption	Typically: 2.0 W, 270 mA UHF transmit: 3.3 W, 270 mA		
	Internal power supply Internal power supply, operation time	Recharge & removable LI-lon battery, 2.6 Ah / 7.4 V, 1 battery fit into receiver • 10.00 h static observations • 7.00 h receiving RTK data with internal UHF radio • 5.00 h transmitting RTK data with internal UHF radio • 6.00 h receiving / transmitting RTK data with internal modem		
	External power supply	Rechargeable external NiMh battery 9 Ah / 12 V		
	Certifications	Compliance to: FCC, CE, PTCRB Local and operator specific approvals (as IC Canada, C-Tick Australia, Japan, China, AT&T)		
Memory & Data Recording	Memory			
SD Hadro	Memory medium	Removable microSD Card: 1 GB		
	Data capacity	1 GB is typically sufficient for about GPS & GLONASS (8+4 satellites) 280 days raw data logging at 15 s rate		
	Data recording	200 days raw data rogging at 153 rate		
	Type of data	Onboard recording of: • Leica GNSS raw data • RINEX data		
	Recording rate	Up to 20 Hz		
User Interface	Buttons	ON / OFF button		
oser interruce		Function button		
==	Button functionality	Function button: • Easy switch between Rover / Base mode • Easy "Here" positioning functionality		
	Led status indicator	Bluetooth®, position, RTK Rover status, RTK Base status, data logging, internal power status, external power status		
	Additional user interface	Additional web interface functionality provides full status indicator and configuration options		
Communications	Communication ports	1 x USB / RS232 Lemo 1 x Bluetooth® port, Bluetooth® v2.00+ EDR, class 2		
	Built In data links			
	Radio modem	Fully integrated, fully sealed receive and transmit radios SATEL, Pacific Crest and TrimTalk support 403 – 473 MHz bandwidth Output power 1W max.		
	UHF antenna options	External UHF antenna connector (Type QN)		
	GSM / UMTS phone modem	Fully integrated, fully sealed phone modem User exchangeable SIM card Quad-Band GSM / GPRS: 850 / 900 / 1800 / 1900 MHz Penta-Band UMTS: 800 / 850 / 900 / 1900 / 2100 MHz		
	GSM / UMTS antenna	Integrated GSM / UMTS antenna		
	External data links			
	Radio modems	Support of any suitable UHF / VHF radio		
	GSM / UMTS / CDMA phone modems	Support of any suitable GSM / GPRS / UMTS / CDMA modem		
	Landline phone modems	Support of any suitable Landline phone modem		
	Communication protocols			
	Real-Time data formats for data	Leica proprietary formats (Leica, Leica 4G)		
	transmission and reception Real-Time data formats according RTCM standard for data transmission	CMR, CMR+ RTCM 2.1, RTCM 2.3, RTCM 3.0, RTCM 3.1 (full support of RTCM 3 Transformation Message)		
	and reception NMEA output	NMEA 0183 V 4.00 and Leica proprietary		
	ner output	Time 1 0200 V 4,000 and cerea proprietary		

Scan with your iPhone or iPad to get the Leica Viva GNSS App or visit www.leica-geosystems.com/viva-gnss Whether you want to stake-out an object on a construction site or you need accurate measurements of a tunnel or a bridge; whether you want to determine the area of a parcel of land or need the position of a power pole or to capture objects for as-built maps – you need reliable and precise data.

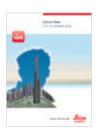

Leica Viva combines a wide range of innovative products designed to meet the daily challenges for all positioning tasks. The simple yet powerful and versatile Leica Viva hardware and software innovations are redefining state-of-the-art technology to deliver maximum performance and productivity. Leica Viva gives you the inspiration to make your ambitious visions come true.

When it has to be right.
